

BARDEHLE PAGENBERG Team

Julian Wilhelm Renner

Dr.-Ing., M.Sc. EEIT, M.Sc. Mgmt

Patent Engineer

Location Munich

Languages: German, English

+49 89 928 05-0

julian.renner@bardehle.de

Dr.-Ing. Julian Wilhelm Renner is a patent engineer specialized in infringement and nullity proceedings, due diligence, and prosecution of patents.

Before his career as a patent engineer, Dr.-Ing. Renner worked as a senior scientist at the Institute for Communications Engineering at Technical University of Munich and published more than 20 scientific articles in the fields of communications engineering, applied coding theory, IT security, and radar sensing.

Legal Areas

Patent Litigation

Patent Prosecution

Oppositions and Nullity

Due Diligence

Unitary Patent

Unified Patent Court

Industries

Semiconductor Technology

Electrical Engineering

Software, IT & Computer Technology

Telecommunications

Automotive

Publications

Over the years, Dr. Renner has collaborated with more than 20 engineers, mathematicians, and computer scientists from over 10 different countries. They have worked in academia, industry, or at defense organizations. These collaborations resulted in more than 20 peer-reviewed journal and conference papers in the areas of communications engineering, applied coding theory, IT security, and radar sensing.

Lectures & Seminars

Dr. Renner has given more than 30 scientific presentations at international symposia as well as lectures on Channel Coding, Coding Theory for Storage and Networks, Security in Communications and Storage, Communication Theory, Sound and Image Processing, and Control Systems 1.

Curriculum Vitae

- 2023 - today** Patent engineer and patent attorney candidate at BARDEHLE PAGENBERG Munich
- 2022 - 2023** Patent attorney candidate specialized in litigation and nullity proceedings, due diligence, and prosecution of patents at Dörries Frank-Molnia & Pohlmann (df-mp)
- 2020 - 2022** M.Sc. in Management with a focus on finance and capital markets at Technische Universität München (TUM)
- 2019** Scientist in the field of IT security at Université de Rennes 1
- 2017 - 2022** Scientist in the field of coding, communications engineering, and IT security at the Institute for Communications Engineering at TUM
- 2017** Scientist in the field of radar and communications engineering at NXP Semiconductors and at Eindhoven University of Technology (TU/e)
- 2015 - 2016** Visiting student with a focus on machine learning at Technical University of Denmark (DTU)
- 2015** Engineer for baseband hardware and signal generators for wireless communication at Rohde & Schwarz
- 2013 - 2014** Lecturer of „Audio and Image Processing“ and „Control Systems 1“ at TUM
- 2011 - 2016** M.Sc. in Electrical Engineering and Information Technology with a focus on communications engineering, coding theory, and digital signal processing at TUM
